COMEF is a leader in distribution of scientific and research equipment in Poland. We are providing state-of-the-art technologies and solutions for scientific, industrial and medical applications, for more than 30 years.

We offer a wide range of equipment of leading manufacturers used by research institutions, manufacturing companies and research centers worldwide.

COMEF represents many globally recognized companies, i.a.: **Hitachi High-Tech, Horiba Scientific, Riber, Neaspec, Plasma-Therm, Spectra-Physics, I-Photonics, SÜSS MicroTec Solutions GmbH & Co. KG, Physical Electronics, Point Electronic.**

We also provide professional technical support and maintenance services.

- **Hitachi High-Tech:** SEM, TEM, STEM, FIB microscopes:

**SU8600** - the latest model of the Hitachi High-Tech microscope with CFE.

The SU8600 brings in a new era of ultrahigh-resolution cold-field emission scanning electron microscopes to the long-standing Hitachi EM lineup.

This revolutionary CFE-SEM platform incorporates multifaceted imaging, automation, increased system stability, efficient workflows for users of all experience levels.

SU 8600 is dedicated to cutting-edge material testing, including lithium batteries and membranes.

- **Horiba Scientific:** Raman spectrometers, emission spectrometers: ICP- OES, GD-OES, GD-MS, monochromators, diffraction gratings, spectral, ellipsometers;
- **Riber:** MBE systems;
- **Neaspec:** FTIR spectrometers, SNOM;
- **Plasma-Therm:** plasma technology;
- **Spectra-Physics:** laser systems;
- **I-Photonics:** vacuum coating equipment for: optoelectronics, microelectronics, photovoltaic, thermal processing in vacuum;
- **SÜSS MicroTec Solutions GmbH & Co. KG:** photolithography, wafer bonding and devices for applying, etching photoresist and cleaning photolithography masks;
- **Physical Electronics:** TOF-SIMS, XPS;
- **Point Electronic:** complete microscope controls for SEM, FIB, TEM and microanalyzers, hardware/software package for modernizing SEMs, detector, analysis systems (electrical analysis and topography).
